STUDENT DRUG TESTING PROGRAM EXTRACURRICULAR ACTIVITIES

The Wagoner Board of Education, in an effort to protect the health and safety of its students from illegal and/or performance enhancing drug use and abuse, thereby setting an example for all other students of the Wagoner Public School District, has adopted the following policy for drug testing of students participating in extracurricular activities.

Purpose and Intent:

It is the desire of the board of education, administration, and staff that every student in the Wagoner Public School District refrain from using or possessing illegal drugs. The administration and board of education realize that their power to restrict the possession or use of illegal drugs is limited. The sanctions of this policy relate solely to limiting the opportunity of any student determined to be in violation of this policy to participate in extracurricular activities. This policy is intended to complement all other policies, rules, and regulations of the Wagoner Public School District regarding possession or use of illegal drugs.

Participation in school-sponsored extracurricular activities such as interscholastic athletics at the Wagoner Public School District is a privilege. Students who participate in extracurricular activities are respected by the student body and are expected to hold themselves as good examples of conduct, sportsmanship, and training. Accordingly, students in extracurricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs. Additionally, this school district is contracted to follow the rules and regulations of the OSSAA whose rules specifically state: A student under a discipline plan or whose conduct or character outside the school is such as to reflect discredit upon the school shall be ineligible until reinstated.

The purposes of this policy are to prevent illegal drug use, to educate students as to the serious physical, mental, and emotional harm caused by illegal drug use; to alert students with possible substance abuse problems to the potential harms of illegal drug use; to help students avoid drugs; to help students get off drugs; to prevent injury, illness, and harm as a result of illegal drug use; and to strive within this school district for an environment free of illegal drug use and abuse. This policy is not intended to be disciplinary or punitive in nature. The sanctions of this policy relate solely to limiting the opportunity of any student found to be in violation of the policy to participate in any extracurricular activities. There will be no academic sanction for violation of this policy.

illegal drug use of any kind is incompatible with participation in any extracurricular activities on behalf of the school district. For the safety, health, and well-being of the students of the district, this policy has been adopted for use by all participant students in grades 9-12.

Definitions:

1. Student athlete or athlete means a member of the high school district-sponsored interscholastic sports team.
2. Extracurricular means those activities that take place outside the regular course of study in school and participants are those students involved in those activities.
3. Drug use test means a scientifically substantiated method to test for the presence of illegal or performance enhancing drugs or the metabolites thereof in a person's urine.
4. Random tests are given to participants from the pool.
5. Random selection basis means a mechanism for selecting students for drug testing that:
 - A. Results in an equal probability that any student from a group of students subject to the selection mechanism will be selected; and

STUDENT DRUG TESTING PROGRAM, EXTRACURRICULAR ACTIVITIES (Cont.)

- B. Does not give the school district discretion to waive the selection of any student athlete or extracurricular activities participant selected under the mechanism.
6. Follow **up** tests can be weekly, at random, or any time a student who has tested positive or may be under suspicion of being under the influence.
 7. Illegal drugs means any substance that an individual may not sell, possess, use, distribute, or purchase under either federal or state law. Illegal drugs include, but are not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled Dangerous Substance Act, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for abusive purposes.
 8. Performance-enhancing drugs include anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. The terms "performance enhancing drugs" does not include dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased in over-the-counter transactions.
 9. Positive, when referring to a drug use test administered under this policy, means a toxicological test result which is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.
 10. Reasonable suspicion means a suspicion based on specific personal observations concerning the appearance, speech, or behavior of a student athlete or extracurricular participant, and reasonable inferences drawn from those observations in the light of experience. Information provided by a reliable source, if based on personal knowledge, shall constitute reasonable suspicion. In the context of performance-enhancing drugs, reasonable suspicion specifically includes unusual increases in size, strength, weight, or other athletic abilities.
 11. Self-referral is when a participant believes he/she will test positive for illegal or performance enhancing drugs, prior to submission for a drug test under this policy, so notifies the principal, athletic director, coach, or sponsor of such belief.

Procedures :

A physical examination signed by a parent/guardian is required before a student may participate on a school District athletic team. A urine screen to detect the presence of illegal or performance-enhancing drugs which could have a harmful effect on the prospective athlete's health and athletic performance will be included as part of that physical examination.

Student participants in extracurricular activities shall be provided with a copy of this policy and an extracurricular activities student drug testing program consent form that must be read, signed, and dated by the student, parent or custodial guardian, and coach/sponsor before a participant student shall be eligible to practice in any extracurricular activity. The consent shall provide a urine sample as chosen by the random selection basis; and at any time requested based on reasonable suspicion to be tested for illegal or performance enhancing drugs. No student shall be allowed to practice or participate in any extracurricular activity unless the student has returned the properly signed consent form.

STUDENT DRUG TESTING PROGRAM, EXTRACURRICULAR ACTIVITIES (Cont.)

Drug use testing for extracurricular participants will be chosen on a random selection basis from a list of all extracurricular participants in off-season or in-season activities. The school district will determine a number of students' names to be drawn at random to provide a urine sample for drug use testing for illegal or performance-enhancing drugs.

In addition to the drug test required above, any extracurricular participant may be required to submit to a drug use test for illegal drugs or performance-enhancing drugs or the metabolites thereof at any time upon reasonable suspicion by the athletic director, principal, sponsor, or coach of the student.

The school district will determine any necessary fees to be collected from students who are drug tested and when those fees will be collected. The cost of subsequent tests will be borne by the school district or appropriate activity fund.

Any drug use test required by the school district under the terms of this policy will be administered by or at the direction of a professional laboratory chosen by the school district that uses scientifically validated toxicological methods. The professional laboratory shall be required to have detailed, written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.

All aspects of the drug use testing program, including the taking of specimens, will be conducted to safeguard the personal and privacy rights of students to a maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility with an enclosed stall or stalls. The athletic director/sponsor shall designate a coach or other school employee of the same sex as the student to accompany the student to a restroom or other private facility. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the athletic director/sponsor who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications he/she has taken or is taking or any other legitimate reasons for having been in contact with illegal drugs or performance-enhancing drugs in the preceding 30 days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the 24 hours following any drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope.

If the initial drug use test is positive, the initial test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique. A specimen shall not be reported positive unless the second test utilizing the gas chromatography/mass spectrometry procedure is positive for the presence of an illegal drug or the metabolites thereof. The unused portion of a specimen that tested positive shall be preserved by the laboratory for a period of six months or to the end of the school year, whichever is shorter. Student records will be retained until the end of the school year.

Confidentiality:

If the drug use test for any student has a positive result, the laboratory will contact the athletic director or designee with the results. Procedures for maintaining confidentiality will be practiced. The athletic director or designee will contact the principal, the student, the head coach/sponsor, and the parent or custodial guardian of the student and schedule a conference. At the conference, the student will be given the opportunity to submit additional information to the athletic director or to the lab. The school district will rely on the opinion of the laboratory that performed the test in determining whether the positive test result was produced by other than consumption of an illegal drug or performance-enhancing drug. Under no circumstance will results from a drug test under this policy be turned over to any law enforcement officer or agency .

Appeal:

A student who has been determined by the athletic director or designee to be in violation of this policy shall have the right to appeal the decision to the superintendent or the superintendent's designee(s). Such appeal must be lodged within five (5) business days of notice of the initial report of the offense as stated in this policy. The superintendent or designee(s) shall then determine whether the original ruling was justified. There is no further appeal right from the superintendent's decision and the decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the superintendent, which shall be final and not appealable.

Consequences:

1. First positive test: The student will be suspended from participating in games/competition in any extracurricular activities for two (2) weeks from the date of administrators meeting with parent/guardian. The student and parent/guardian must attend counseling two (2) times during the suspension period. The student will retest at the end of two (2) weeks from the date of meeting with administrators and parent/guardian.
2. Second positive test: The student will be suspended from participating in games/competition in any extracurricular activities for forty-five (45) days from the date of administrators meeting with parent/guardian. The student and parent/guardian must attend counseling four (3) times during the suspension period. The student will retest at the end of two (2) weeks from the date of meeting with administrator and parent/guardian.
3. Third positive test: The student will be suspended from participating in games/competition in any extracurricular activities for ninety (90) days from the date of administrators meeting with parent/guardian. The student and parent/guardian must attend counseling eight (4) times during the suspension period. The student will retest at the end of two (2) weeks from the date of meeting with administrator and parent/guardian.
4. Self Referral: If a student self-refers to the athletic director, principal, coach, or sponsor before submitting a drug test sample, then the athletic director, coach, or sponsor will immediately notify the respective building principal. The student will then be considered to have failed the corresponding level of this drug test. Students will be given the penalty that corresponds with the level of *previously* failed drug tests.
5. Refusal to submit to a drug test: If a participating student refuses to submit to a drug test under this policy, such student shall not be eligible to participate in any extracurricular activity, including all meetings, practices, performances, and competition for 180 school days, upon completion of which, the participating student shall again be subject to this policy.
6. Refusal to participate in counseling: If a student and parent/guardian refuses to participate in the assigned counseling sessions provided by the school, the student will be removed from all extra curricular activities for the remainder of the school year.
7. Altering a drug test sample: If a student alters the sample, in any way, the student will then be considered to have failed the corresponding level of this drug test.

WAGONER PUBLIC SCHOOLS

DRUG TESTING PROGRAM

Parental Consent Form

Donor Name: _____ **Date of Birth:** _____

I, _____ being the parent or legal guardian of,
_____ hereby consent to have a urine drug screen specimen taken by Wagoner Public Schools. I understand that it will be used for drug analysis and biochemical testing by Wagoner Community Hospital at Wagoner High School. The result of the test(s) on these specimens will be made available to Wagoner Public Schools and or person who paid for services and their authorized personnel. I understand that Wagoner Public Schools will only accept drug testing results from Wagoner Community Hospital. I also understand that failure to participate in this program will forfeit the above listed donor's privilege of participation in extracurricular activities for Wagoner Public Schools.

I hereby consent as stated above and certify the information I have provided is accurate to the best of my knowledge.

Signature of Donor: _____ **Date:** _____

Printed Name of Parent/Guardian: _____

Signature of Parent/Guardian: _____ **Date:** _____
